

LEAVE AREA BLANK FOR EYELETS ONLY

LEAVE AREA BLANK FOR LOOP AS WELL AS AREA ABOVE

DESIGN SPACE CENTRE EYELETS

DESIGN SPACE CENTRE LOOP

How to use this guide

- 1. Set your guides to the cross hairs and bleeds (pink edge) if required.
- 2. Add your design over the top of this layer.
- 3. Once complete delete this layer before sending to print.
- 4. Leave areas above and below your design. Too close the the top and it can look weird when its hanging on display. Too close to the bottom and it can be difficult to read or it may be lay on the floor depending on the hight of your frame.
